

As a resident of Willington who has seen the public benefit of protecting our natural resources through open space preservation, I am opposed to the transfer of funds from the CIA Fund to the Healthy Foods Initiative. The Healthy Foods Initiative is important, but should be funded under the Department Of Education Budget. Diverting funds from the CIA will negatively impact open space, farmland preservation, affordable housing projects and historic properties. Please do not allow the CIA fund to be used for this purpose .

Sincerely,

Kathy Demers
